

THE INSIDER

Vol. 1, No. 1

First Quarter 2017

A Message From Our President

On behalf of the Ace Pumps family, I am pleased to welcome you to the inaugural edition of *The Insider*, Ace Pump Corporation's new quarterly newsletter.

The goal of this publication is to keep you updated on the latest developments at Ace Pump Corporation. Each quarter, *The Insider* will feature topics ranging from new products and upcoming trade shows to personnel changes, plant activities, OEM/application features and more.

I hope you find this newsletter to be an informative and valuable resource for your business.

Andy Randle, President

March	1 - 4	Commodity Classic	Booth
		San Antonio, TX	5051
	3 - 4	Mid-South Farm & Gin	Booths
		Memphis, TN	108 - 109

Interest Grows In Our Gemini™ Dual Pump Kit

Now in its second year on the market, the Gemini™ Dual Pump Kit from Ace Pump Corporation continues to draw rave reviews from farmers, retailers and industry experts.

The Gemini dual pump kit allows a user to operate two Ace pumps independently from a single hydraulic supply and control them manually or with a PWM (pulse width modulated) control signal. It is designed to control any combination of Ace's popular FMC-HYD Series pumps powered by our 204 and 206 motors. Once installed on a planter or sprayer, it allows operators to quickly and easily dial-in separate application rates for liquid fertilizers, herbicides, pesticides and other crop inputs.

The Gemini kit can be used on tractors with either load sensing closed center (LS closed) or pressure compensated closed center (PC closed) hydraulic systems. Oil may be supplied from one selective control valve (SCV) or the power beyond hydraulic supply. The package includes everything needed for manual operation including a switch box, wiring harness, hydraulic valve manifold and fittings. The system may also be controlled automatically using PWM control signals from the customer's controller to the included proportional valves.

Among its many accolades, the Gemini Dual Pump Kit was voted one of the Top 10 New Products at last year's World Ag Expo.

Proud To Be a Part of Our Customers' Success

At Ace Pump Corporation, we are fortunate to work with hundreds of original equipment manufacturers (OEMs) in the agricultural and off-highway markets. One of those fine companies is Case-IH, and we would like to take this opportunity to congratulate them on two honors they received in December 2016.

Last month, *AgriMarketing* magazine named the Case-IH Early Riser® Planter as its 2016 New Product of the Year. Ace Pumps supplies the pumps for the Early Riser's liquid fertilizer application system.

Ace Pumps also supplies pumps for the Case-IH Patriot® line of self-propelled sprayers, which was named *CropLife* magazine's Product of the Year for 2016.

Congratulations to Case-IH and thank you for letting us be an integral part of your success.

Sign Up Your Co-Workers To Receive *The Insider*

To make sure your co-workers receive the latest news about Ace Pump Corporation, please send their email addresses to TheInsider@AcePumps.com. Thank you.

Thanks for letting us
be a part of your success.

At Ace Pump Corporation, we take great pride in being the OEM pump supplier for Case-IH Early Riser® planters, *AgriMarketing* Magazine's New Product of the Year. Congratulations on this great honor and thank you for making us an integral part of your success.
