## FMC-75-HYD

See page 2 for more information

## FMC-200SS-HYD-304

See page 5 for more information

## FMCWS-650F-HYD

See page 6 for more information

## FMC-200SS-MAG-DX

See page 13 for more information

## Poly Impeller

For 150 Series CCW pumps including HYD and PTOC models

Polypropylene is a great alternative to more expensive options when applying ammonia. Extend the usefulness of your 150 Series pump in ammonia applications by using the new poly impeller.

## Stainless Impeller

For 200 Series CCW and 650 Max Series pumps

Optional 316 stainless steel impellers now available for ultimate corrosion resistance.
